## \$ cat summary.txt

Backend developer with solid experience in PHP and Symfony, REST API development and MySQL database management. I have worked on complex systems-integration and web projects, building efficient, maintainable solutions. Proactive and results-driven, I enjoy solving hard problems and I'm always looking for challenges that let me grow technically and contribute to the team.

## \$ ls experience/

### Backend Developer — Fullscreen, Porto

Jan 2024 – Present

- Development and maintenance of websites using PHP and Symfony.
- MySQL database management and optimization — complex queries and performance analysis.
- Built features for process automation and integration with ERPs (Primavera, PHC, etc.).
- Collaborated with cross-functional teams to deliver quality solutions.

## \$ ls education/
